

Ravioli SpA

28.06.2023

Further to your request for confirmation, that Schaltbau Machine Electrics does not have any substances in our articles considered a SVHC under the REACH directive.

Schaltbau only manufactures and sells non-chemical products. Moreover, these products do not release chemical substances under normal, reasonable, foreseeable conditions of use.

Schaltbau is therefore a so-called downstream user and not required to register its products. However, we are obliged to provide information in accordance with Article 33 of the REACH directive. This means we are required to pass on information along the supply chain if a so-called SVHC (Substance of Very High Concern) is present in amounts of 0.1% or more of the mass of any product we make.

I can confirm I have reviewed the latest revision of the Candidate List of Substances of Very High Concern (SVHCs) last updated on 17th January 2023, The Candidate List now containing 233 substances.

I can confirm that none of the Contactor / Relay spares products currently supplied by Schaltbau Machine Electrics Limited to Ravioli. Contain SVHC's greater than 0.1% content by weight.

Client's Product Name	Client's Product Number	Your Product Number
Various	1-2603-*****	Various as selected
Various	1-3603-*****	Various as selected
Various	1-1603-*****	AFS contactor series

Kind Regards
